26 June 2024

Bunwell, Bunwell Street Carriageway Drainage Works and Temporary Road Closure

Bunwell Street at Bunwell will be temporarily closed to vehicular traffic between its junction with Mile Road and Hall Road to its junction with North Road from 15 July 2024 for up to 11 weeks to carry out essential works to improve the carriageway drainage. The work will include the construction of a new drainage system along Bunwell Street to address the historic flooding issues.

Access for residents will be maintained during the works with signed diversion routes in place, although there may be some unavoidable temporary restrictions to frontages as the works progress however these will be agreed in advance by the operatives on site. Bus services inclusive of school services will also be diverted around the temporary closure as necessary and pedestrian access through the closure will also be maintained. Blue Light services will also be notified of the closure.

Surveys of the historic drainage system found it beyond serviceable repair and therefore these works have been promoted by the County Council's Maintenance Team.

The temporary road closure will accommodate all residential traffic within the works extent.

The County Council thanks people for their patience while this drainage improvement work is carried out.

The work which will cost £210,000 will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors.
